# India warns Pakistan of "painful consequences" over nuclear war rhetoric

**NEW DELHI :** India on Thursday rejected Pakistan's over recent nuclear war threats by its Army Chief, cautioning that any misadventure could have "severe consequences" as demonstrated in the past.

We have seen several statements and reports regarding the continuing pattern of remarks warning against India's leadership against India," Ministry of External Affairs (MEA) spokesperson Ranbir Jaiswal said during the weekly briefings.

"Pakistan would be well advised to temper his rhetoric as any misadventure will have severe consequences as was demonstrated recently," he added, referring to India's Operation Sagarmala after the deadly attack on innocent civilians in Jammu and Kashmir's Pulwama, which took 26 lives.

This comes after Pakistan

Army Chief Munir Mirza, during his second and recent visit to the United States, had issued a statement with nuclear war, warning that Islamabad could plunge the "Pakistan's stock-in-trade and highlighting the "irreversibility of conflict and 'take almost half of the world' down if faced with an existential threat in the future."

"It's a well-known modus operandi of Pakistani leadership to issue such India rhetoric time and again to hide their own failures," Jaiswal said.

Earlier this week, the

MEA had issued a strong statement in response to Munir's remarks, calling on Islamabad to withdraw the salve-rattling.

Pakistan's stock-in-trade and highlighting the "irreversibility of conflict and 'take almost half of the world' down if faced with an existential threat in the future."

The spokesperson said,

Islamabad will defend its stance and proceed with its construction on the Indus River.

"We will wait for India to do so, we will destroy it," Munir told members of the Pakistani American Society in Tampa, Florida, according to a report published today in the Dawn.

The statement has been drawn to remarks reportedly made by the Pakistani Chief of Army Staff (COAS) earlier this year, warning that Islamabad could plunge the "Pakistan's stock-in-trade and highlighting the "irreversibility of conflict and 'take almost half of the world' down if faced with an existential threat in the future."
